A Los Angeles grocery store allegedly refused to provide service to a transgender mother when she tried to buy a box of cookies for her son, one of her employees told the Los Angeles Times. The parent made a purchase on the store's in-store credit card machine shortly after 11 p.m. on March 11. The employee told the newspaper the clerk then returned to the mother and told her that they wouldn't be able to accept the card because it contained the initials "T." ADVERTISEMENT "She started to cry," the employee reportedly said. "She said she had to fight for her son to have the right to be a girl." NBC4 Los Angeles reports that the Los Angeles Police Department is investigating the incident. Grocery store spokeswoman Christina Patterson confirmed to the Times that "appropriate action" was taken.[Favicon.ico] Root-Tag

## GestWin Keygen For (LifeTime)

A lot of time we use PCs. And we know it is really hard to keep everything in a state of best performance. For this reason GestWin comes to your aide. GestWin is an automatic cleaning system of your Operating System. The software does all the cleaning you just don't have the time or the imagination to do it yourself. Gestwin is for you. Source: GestwinQ: Magento User Groups List I am looking for a way to list all groups in magento as well as what the users are in those groups. Thank you. A: There is a pretty simple way to get this information via SQL, however it requires Magento Enterprise Edition and I don't know if it is possible to access this information via an extension that would allow users to see the groups they are member of.

Mage\_User\_Model\_Resource\_Group\_Collection - Find all groups `SELECT * FROM `admin_group` GROUP BY `group_id``  
Mage\_User\_Model\_Resource\_User\_Collection - Find all users in groups `SELECT * FROM `admin_user` WHERE `group_id` = 'group_id'`  
More on the groups table: More on the user table: P.S: In order for this to work you'll need to setup permissions to view the tables/views. A: I think it would be easiest to pull a list of all users by doing this: `SELECT `user`.`user_id` AS `id`, `user`.`username` AS `name`, `user`.`password` AS `password` FROM `admin_user` AS `user` WHERE `user`.`active` = 1` And then loop through the rows to find a user's associated groups
