Scroll down to check for licenses and set the Activation Code to 1. Click the CHECK MY ACCOUNT button. Select LICENSES and click ACTIVATE. If this method is successful, the software will be activated and you should be able to start using it immediately. Important: If you want to access any licenses, make sure to back up your activation code. This will allow you to contact us and change your activation code for free should you have lost it. You can also contact us by emailing us at techsupport@teamforspeed.com If the activation code for the software was lost or there is a licensing issue, you can have your serial number replaced and it will be activated for you for free. First, go to www.teamforspeed.com/support and enter your email and your order reference in the box. Your serial number will then be emailed to you as soon as possible. The email should have a link that you can click to request a new activation code. If you do not receive this email, please email us at techsupport@teamforspeed.com so that we can track your order. Once you have your new code, go to your License Center and click the CHECK MY ACCOUNT button. Enter your new activation code. Scroll back up to see the selected license type and click the ACTIVATE button. To activate the software on the Mac, go to your Applications folder and open the software. Click the License & Activation button. Enter your serial number and select the License Type. Click the ACTIVATE button. To activate the software on the Windows, right click the icon of the software in your Start Menu or in your Programs folder and select Run as administrator. Type in the serial number and select the License Type. Please note that all Mac versions of the software will be activated under the Mac license. If your Mac version of the software has been activated under the Mac license and you have also purchased a Windows version, your license keys will not work. You can purchase a Windows license from your Account page. On the Account page, you will 82157476af
