This game is more fun than it has right to. If you love 8bit style party games, Rumpus is for you. Beautiful and quirky hand-drawn characters, mood-setting high-octane music, and a blink and you're dead play speed. I suck at playing high speed games, and I still had a lot of fun. Multiplayer, cooperatively or competitive, makes the experience, and I can't wait to play it with all four players at a time.

BUY THIS. GAME. NOW.. I love this game! It's really addictive and challenging. I like that it's very strategic and cooperative, you really have to think your moves in order to complete the levels. Also the characters are really funny and the scenarios are awesome with lots of surprises.

I really recommend it ;). It's an amazing game!,

Looks like simple but when you start to play it, that becomes a really big challenge with all that enemies around the screen all the time, the multiplayer game is so funny to play with friends, and you can pass several hours playing without getting bored. You need really good reflexes to move along the levels making it difficult and really vicious.

Highly recommended for all those players that are looking for hard challenges!

. nice physics, awesome and addictive music and a gameplay that unlocks frenzy mode on you... really nice to play with friends.

Do you like throwing stuff at people?

Do you like to claim victory against your friends and see them swallow sadness and defeat?

Do you like to learn new and creative ways to use office chairs as projectiles?

Do you like to ponder about the inevitability of death and the decay of your metabolism as you grow older and frail?

Do you stare at the abyss and the abyss stares back at you?

Then this is the game for you!

Don't mind my total play time. My friends and I had tons of fun with this game even when it was in development. It's a bonafide couch multiplayer game... with absurd themes, intense but brief rounds and runs like diarrhea after combining coffee with bananas (it runs great, that's what I meant).

If you like to have friends in your home and play multiplayer games, this is a great choice.

Also, it has a duck with giant legs! What are you waiting for? Buy now!. This game really brings me back to my arcade days, hahaha!

The character design is funny as sh***, the Rubber Duck with legs cracks me up.

It has that nostalgic feel, I look forward to more from these guys.

Kudos!. I'm having so much fun playing this game with my brother!!

The Rumping is real!

A great multiplayer experience. Highly recommended to add to your couch-party-game library.
